

Working with Display Screen Equipment (DSE)

Duration:

Half day

Objective

The use of Display Screen Equipment is widespread throughout almost every industry sector. Large numbers of employees use DSE as a significant part of their job. The Display Screen Equipment (DSE) Regulations require employers to assess workstations to minimise risks of occupational ill-health. This half-day course is designed to enable employers to conduct suitable DSE Workstation Assessments, taking into account management of work activities, breaks and related health issues.

Contents

Health & Safety (Display Screen Equipment) Regulations 1992 - Legislation overview

Work-station practical demonstration and exercise

Conducting a work-station assessment, recording findings and follow up activities

Who should attend

This course is ideally designed for office managers, team leaders, administration managers, human resource staff and others with responsibilities for DSE work based activities.

Course benefits

Implementing a programme of Workstation Assessments will reduce the risk of occupational ill-health, fatigue and stress from intensive periods of DSE work.

Additional information

Sample documentation will be introduced for discussion purposes and guidance on appropriate assessment techniques.

Certificates

All delegates who successfully complete this course will receive a certificate of attendance.

Trainers background

The trainer for this course has extensive experience in design and delivery of health & safety training programmes. They are qualified by NEBOSH (National Examination Board for Occupational Safety & Health) and Associate member of IOSH (Institute of Occupational Safety & Health) and is a member of the Chartered Management Institute and the International Institute of Risk and Safety Management and the Association for Project Safety.
